EDUCATION

-
- Ph.D. in Computer Science (Artificial Intelligence)** | University of Florida 2026 –
• Under the supervision of Dr. Sumit Jha • Focusing on the area of Artificial Intelligence
- M.S. in Data Science/Artificial Intelligence** | Florida International University (FIU) 2024–2026
• Enrolled in FIU's accelerated pathway program • 3.99 GPA
- B.S. in Computer Science** | Florida International University (FIU) 2021–2025
• Presidential Scholar (FIU) • Honors College Student • Member of FIU INIT Club
• Above 3.8 GPA in major courses • Graduated August 2025 • Achieved Dean's List multiple times
- Minor in Mathematics** | Florida International University (FIU) 2021–2025
• 4.0 GPA • Completed August 2025

PUBLICATIONS

-
- (2026) **Online-Adaptive Fuzzy Cognitive Maps for Neuro-symbolic Financial Forecasting.** ICMLA 2026 (IEEE), Michigan – Accepted.
Online-adapting Fuzzy Cognitive Maps fused with an LSTM and news sentiment for interpretable financial forecasting.
- (2026) **CondVQA: A Benchmark for Conditional Visual Question Answering in Video Understanding.** M.S. Thesis, Florida International University – Advisor: Dr. Yanzhao Wu.
Hybrid LLM/VLM pipeline that splits conditional video questions to isolate relevant frames for accurate video QA.

PROFESSIONAL EXPERIENCE

-
- Artificial Intelligence Engineer - DARPA Research, University of Florida** 2026 – Present
(PI: Dr. Sumit Jha)
• Design and implement AI and interpretability methods for DARPA-sponsored research programs.
• Develop and deliver presentation-ready prototypes, figures, and technical briefings communicating results to program stakeholders.
• Collaborate with fellow researchers to translate program objectives into reproducible experiments and documented deliverables.
- Graduate Research Assistant - Jha Lab, University of Florida** 2026 – Present
(Advisor: Dr. Sumit Jha)
• Conduct doctoral research in artificial intelligence, with a focus on interpretability and neuro-symbolic methods.
• Prepare manuscripts, experiments, and research findings for publication and lab-wide review.
- SAT Tutor - Cram Coach Tutoring** 2024 – 2025
• On-site Tutoring at Cram Coach Tutoring, used online and physical approaches in tutoring.
• Thrived in a teaching environment through engaging communication skills.
- SAT Tutor - FIU Dual Enrollment** 2022 – 2023
• Official SAT tutor with over 20 hours of community service. Coordinated SAT study sessions, creating the work environment for students. Specialized in Mathematics, with profound knowledge and dedication.

Internship - CIARA Network

2021

- Completed a 6-week on-site internship collaborating on networking research projects.

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript, Python, C, TensorFlow, PyTorch, HTML, CSS
- **Development Tools:** Experience with R, Google Colab, Anaconda, Jupyter Notebook
- **Agentic Systems:** Claude, OpenAI, MCP Servers
- **Core Competencies:** SQL, Machine Learning Algorithms, Neural Networks, AI, PowerBI
- **Soft Skills:** Great Communicator, Mathematical Excellence, Problem Solving and Great Thinker (1510 SAT)

PERSONAL PROJECTS

ShellHacks / Financial Dashboard

2024

- Financial dashboard with login/signup using Node.js and a MySQL backend
- Available at: github.com/rdgbrandon

NBA Predictor App

2024

- NBA outcome predictor built with Streamlit, using RFC and regression models
- Available at: github.com/rdgbrandon

Stock Overflow

2025

- Stock simulation using real-world metadata and Brownian motion, in Python and HTML
- Available at: github.com/rdgbrandon

ShellHacks / Marketing Agents

2025

- LLM agent framework turning business ideas into revenue across social platforms
- Available at: github.com/rdgbrandon

Data-Driven Financial FCM

2025

- Mapped the US stock market with Fuzzy Cognitive Maps using live data and ML-derived edges
- Available at: github.com/rdgbrandon

Hybrid-ATP

2025

- LLM-agent proof-solving framework with proof verification in the Lean language
- Available at: github.com/rdgbrandon

ShellHacks 2026 / ACLEP

2026

- An AI Scribing Assistant which both transcripts outpatient conversations and flags unusual actions using a Vision Language Model
- Available at: github.com/rdgbrandon

Integrated Gradients in Robotics Diffusion

2026

- Work under Dr. Sumit Jha, shows what robots look at using integrated gradients in a Vision Language Model
- Available at: github.com/rdgbrandon

ACHIEVEMENTS

- 3.9 GPA in Computer Science major courses
- 4.0 GPA in Mathematics minor
- Over 20 hours of community service through SAT tutoring, 1510 SAT Score
- Graduated with Bachelors during Sophomore Year. Graduated with Masters at 21
- Interested in AI/ML Research Opportunities!
