Education

2024-2026 M.S. in Data Science/Artificial Intelligence - Florida International University

Enrolled in FIU's accelerated pathway program
4.0 GPA

2021-2025 B.S. in Computer Science - Florida International University

Presidential Scholar (FIU)
Honors College Student
Member of FIU INIT Club
Above 3.8 GPA in major courses
Achieved Dean's List multiple times
Graduated August 2025

2021-2025 Minor in Mathematics - Florida International University

4.0 GPA
Completed August 2025

Professional Experience

2024 - Cram Coach Tutoring
2025 *SAT Tutor*

On-site Tutoring at Cram Coach Tutoring, used online and physical approaches in tutoring. Thrived in a teaching environment through engaging communication skills.

2022 - FIU Dual Enrollment
2023 *SAT Tutor*

Official SAT tutor with over 20 hours of community service. Coordinated SAT study sessions, creating the work environment for students. Specialized in Mathematics, with profound knowledge and dedication.

2021 CIARA Network
Internship

Completed a 6-week internship, collaborating on networking projects. Worked on site with the assistance of research in CIARA.

Personal Projects

2024 ShellHacks / Financial Dashboard

Created a financial board with login/signup functionality using Node.js
Developed backend with MySQL
Available at: github.com/rdgbrandon

- 2024** **NBA Predictor App**
 Successfully constructed an NBA Predictor Application with Steamlit
 Implemented ML models such as RFC and regression tools to predict performance
 Available at: github.com/rdgbrandon
- 2025** **Stock Overflow**
 Implemented a Stock Simulation based on real world metadata.
 Simulated price change with Brownian Motion, created with Python and HTML
 Available at: github.com/rdgbrandon
- 2025** **ShellHacks / Marketing Agents**
 Created a AI LLM framework that brings business ideas into revenue.
 Different Agents help with different social medias.
 Available at: github.com/rdgbrandon
- 2025** **Data-Driven Financial FCM**
 Through extensive Research of Fuzzy Cognitive Maps, mapped US Stock Market
 Designed a viewable ma which fosters simulation and predictions.
 Used real-world live data and ML techniques to create edges.
 Available at: github.com/rdgbrandon
- 2025** **Hybrid-ATP**
 With LLM agents, created a proof solving framework.
 Implemented verification of the proofs with the language leAN.
 Available at: github.com/rdgbrandon

Technical Skills

- **Programming Languages:** Java, JavaScript, Python, C, TensorFlow, PyTorch, HTML, CSS
- **Development Tools:** Experience with R, Google Colab, Anaconda, Jupyter Notebook
- **Core Competencies:** SQL, Machine Learning Algorithms, Neural Networks, AI, PowerBI
- **Soft Skills:** Great Communicator, Mathematical Excellence, Problem Solving and Great Thinker (1510 SAT)

Achievements

- **Presidential Scholar at Florida International University**
- **Member of FIU INIT Club**
- **3.9 GPA in Computer Science major courses**
- **4.0 GPA in Mathematics minor**
- **Over 20 hours of community service through SAT tutoring, 1510 SAT Score**
- **Graduated with Bachelors during Sophomore Year. Planned to graduate with Masters by 21**

Interests

- **Playing Chess**
- **Doing Tricky Math Problems on my free time**
- **Weightlifting and Fitness**
- **Playing Intramural Basketball and Football**

Interested in AI/ML Research Opportunities!
